

## **TAR NC**

### **Art. 30 (1)(b)(i) – Information on the allowed and/or target revenue.**

In line with the Article 30 (1)(b)(i) of the TAR NC, subject to Early Compliance Requirements, the following information should be published, if they are relevant for the current tariff period of the respective transmission system operator:

*„the allowed or target revenue, or both, of the transmission system operator“*

Since the transmission system operator Eustream, based on the Decree of the Regulatory Office for Network Industries No. 223/2016 Col., which sets price regulation in gas industry, uses the tariff setting methodology based on the direct comparison of the prices with the other relevant TSOs from the Member States, neither allowed, not target revenue are defined for the current tariff period.
