

Commission Regulation (EU) 2017/460 of 16 March 2017 establishing a network code on harmonised transmission tariff structures for gas (hereinafter referred to as „TAR NC“)

Art. 30(2)(a)(i) of the TAR NC – Information regarding the difference in the level of transmission tariffs for the same type of transmission service applicable for the prevailing tariff period and for the tariff period for which the information is published

In line with the Article 30(2)(a)(i) of the TAR NC the following information should be published:

„the difference in the level of transmission tariffs for the same type of transmission service applicable for the prevailing tariff period and for the tariff period for which the information is published“

The transmission system operator eustream, a.s. according to Art. 30(2)(a)(i) of the TAR NC publishes the difference in the level of transmission tariffs for the same type of transmission service applicable for the prevailing tariff period and for the tariff period for which the information is published.

Entry	Tariff level (actual tariff period) [€/ (MWh/day)/year]	Final Reference Prices (For the tariff period from 1 May 2026) [€/ (MWh/day)/year]	Difference
Lanžhot	365.0	401.50	36.50
Baumgarten	365.0	401.50	36.50
Veľké Zlievce	365.0	401.50	36.50
Výrava	365.0	401.50	36.50
Exit	Tariff level (actual tariff period) [€/ (MWh/day)/year]	Final Reference Prices (For the tariff period from 1 May 2026) [€/ (MWh/day)/year]	Difference
Lanžhot	365.0	401.50	36.50
Baumgarten	365.0	401.50	36.50
Veľké Zlievce	365.0	401.50	36.50
Výrava	365.0	401.50	36.50

Note: The comparison contains only information for the EU Interconnection Points.¹ The reserve prices for other points than EU Interconnection Points are based on the reference prices set by the relevant price decision, but their final determination is based on a different methodology based on national legislation, for this reason they are not part of the comparison.

¹ Entry/exit points Lanžhot, Baumgarten, Veľké Zlievce and Výrava are interconnection points according to the Commission Regulation (EU) 2017/459 of 16 March 2017 establishing a network code on capacity allocation mechanisms in gas transmission systems and repealing Regulation (EU) No 984/2013 (hereinafter referred to as „EU Interconnection Points“).

The final reference prices for the EU Interconnection Points, which were the reserve prices for the yearly standard capacity products for these points, for calendar year 2025, have been set in accordance with the price decision of the Regulatory Office for Network Industries No. 0001/2025/P of 5 June 2024. According to the given price decision, the final reference prices determined for the calendar year 2025 will be also valid for other years of the tariff/regulatory period in case that there is no amendment in the price decision or cancellation and replacement of the price decision with a new price decision during this period in connection with the reference prices.

On 13 April 2026, the Regulatory Office for Network Industries issued decision No. 0040/2026/P, by which it set new prices and the conditions for their application for the period from 1 May 2026. The final reference prices will also apply for the following years of the tariff/regulatory period if there is no amendment in the price decision or cancellation and replacement of the price decision with a new price decision during this period in connection with the reference prices. Furthermore, pursuant to Section 17(2)(d) of Act No. 250/2012 Coll. on regulation in network industries, as amended, the Regulatory Office for Network Industries repeals, with effect from 1 May 2026, decision No. 0040/2019/P of 29 May 2019 as amended by Decision No. 0001/2025/P of 5 June 2024, and decision No. 0031/2023/P of 13 February 2023 as amended by decision No. 0002/2025/P of 5 June 2024, because the economic parameters used to determine the price have significantly changed. At the same time, it is necessary, for reasons of certainty, clarity, and transparency, in conjunction with Section 17(4) of Act No. 250/2012 Coll., to issue the decision in its full wording.

The respective price decisions of the Regulatory Office for Network Industries are available on the website of the Regulatory Office for Network Industries in the section „Rozhodnutia >> Cenové rozhodnutia >> Plynárenstvo“ and on the website of the transmission system operator eustream, a.s. in the section "Products and Services >> Download >> Prices and Tariffs" (please see the following links):
