

Commission regulation (EU) 2017/460 of 16 March 2017 establishing a network code on harmonised transmission tariff structures for gas (hereinafter referred to as „TAR NC“)

Art. 29(b) of the TAR NC – Information for standard capacity products for interruptible capacity

ii) An assessment of the probability of interruption including

(3) The historical or forecasted data, or both, used for the estimation of the probability of interruption referred to in point (2)

An assessment of the probability of interruption including the historical or forecasted data used for the estimation of the probability of interruption referred to in point (2) of the Article 29(b)(ii) of the TAR NC is not relevant due to the fact specified in the documents related to the Article 29(b)(ii)(1)(2) of the TAR NC.
