

**Demand assessment report
for incremental capacity
between *Hungary* and *Slovakia*
*where no non-binding demand indications
were received***

2021-10-25

This report is a joint assessment of the potential for incremental capacity projects conducted by

TSO 1: FGSZ Natural Gas Transmission Private Company Limited by Shares (FGSZ Ltd.) TSO 2: eustream, a.s.

Address: Tanácsház utca 5., Siófok, 8600, Hungary

Address: Votrubova 11/A, 821 09 Bratislava, Slovak Republic

A. Non-binding Demand indications

This analysis is in line with the Regulation (EU) 2017/459 and includes an evaluation of all non-binding demand indications received no later than 8 weeks after the annual yearly capacity auction on 5 July 2021.

The involved TSOs, FGSZ and eustream did not receive any non-binding demand indications for firm capacity at the interconnection point between the entry-exit system of FGSZ and the entry-exit system of eustream for any future period by the deadline referred to in Art. 26 paragraph 6 of Regulation (EU) 2017/459.

Therefore, the amount of 0 for non-binding demand indications has been used as a basis for this demand assessment.

B. Demand assessment

The received demand indications within the current incremental process between the entry-exit system of TSO 1 and the entry-exit system of TSO 2 are zero. The potentially available capacity (i.e. technical capacity which is not yet booked in the long term) for the requested period is currently sufficient to cover potential future capacity need.

C. Conclusion for the (non)-initiation of an incremental capacity project/process

According to the assessment result of the non-binding demand indications under point B, no demand levels for incremental capacity need to be developed and hence, no incremental capacity project will be initiated by the involved TSOs.

Based on the aforementioned decision, no technical studies for incremental capacity projects will be conducted.

D. Provisional Timeline

For the time being no incremental project will be initiated. The next incremental capacity cycle will start after the annual yearly capacity auction in 2023.

E. Fees

FGSZ

For the incremental capacity cycle addressed by this report, FGSZ applied a registration fee based on the prevailing regulation (NRA's decision number H1617/2021).

eustream

Eustream did not introduce a fee for the evaluation and processing of non-binding demand indications.
